BTR — Project Discovery Questionnaire

Q01 · 360-BTR-2026-001 · Anas — French Toast Café

Please complete the information available. If something has not yet been decided, write "To be confirmed". Your answers will serve as initial assumptions for our kickoff discussion. Bar and beverage development are outside the kitchen consulting scope.

01 — Vision & Positioning

Describe the BTR concept in a few sentences

toast as the primary focus. Our objective is to elevate the French toast experience by improving the product's quality, taste, presentation, and overall appeal beyond what is currently available in the market.

Target customers (families, young adults, professionals, others)

Our primary target customers are families and working professionals.

Positioning: affordable / mid-range / premium

Mid-range to premium.

Reference concepts or sources of inspiration

aligns with our vision. In our assessment, many existing French toast offerings are relatively similar in terms of product concept and presentation. BTR aims to stand out through product innovation, quality, distinctive presentation, and a

02 — Product Offering & Menu

Planned product categories

An individual takeaway French toast product designed for convenient consumption on the go.

Current status of the menu

The menu is currently at the initial concept development stage.

Three proposed signature products

We will share reference links to comparable products to communicate our vision and help guide the development of our signature offerings.

Same menu throughout the day or different dayparts?

Additional breakfast products will be introduced during the morning period to complement the core French toast and coffee offering.

Who is developing the bar and beverage offering?

Anas and Ahmed.

03 — Pricing & Customer Experience

Target selling price of a signature French toast (SAR incl. VAT)

Family sharing French toast: SAR 120–170, depending on the final product configuration.

Expected average ticket (SAR incl. VAT)

Individual customers: approximately SAR 27.

Family orders: approximately SAR 200

Service model: counter / table / mixed

Counter ordering and collection.

Sales channels: dine-in / takeaway / delivery / events

We intend to develop all relevant sales channels, including dine-in, takeaway, delivery, and events. These channels will be introduced in phases based on operational readiness and business priorities.

04 — Volumes & Forecasts

Transactions per day: weekdays and weekends

Weekdays: SAR 10,000.

Weekends: SAR 17,000.

French toast portions per day: weekdays and weekends

Weekdays: 500 portions per day.

Weekends: 700 portions per day

Source or method used for your forecasts

Our preliminary forecasts are based on market research, competitor analysis within the coffee sector, and estimates informed by the project's location.

Expected peak periods

Morning hours on weekdays are expected to be a key peak period, particularly due to demand from working professionals and the planned breakfast offering.

Estimated volume during the busiest hour

The individual takeaway product is intended to be integrated with a cup of coffee as a permanent morning promotional offering. This combination is designed to attract working professionals and customers seeking a convenient breakfast on the go. The expected peak-hour order volume will be determined during the

05 — Production & Operations

Preferred production model

Production will take place on-site.

Open, semi-visible, or closed kitchen?

A semi-open kitchen is preferred, potentially incorporating a small service opening that allows orders to be handed directly to customers.

Planned opening hours

From 7:00 AM to 12:00 AM (midnight), operating for 17 hours per day.

Expected kitchen staffing per shift

Three kitchen staff members per shift.

06 — Premises & Logistics

Is a dimensioned floor plan available?

Yes. A floor plan is available and will be shared separately.

Is there a separate delivery entrance?

No, there is currently no separate entrance for delivery orders.

Areas already fixed by the interior designer?

Yes. Certain areas have already been allocated by the interior designer.

Known technical provisions (water, electricity, extraction)

The required technical provisions, including water supply, electrical connections, and extraction systems, will be determined and installed according to the kitchen's operational requirements and selected equipment.

Available photos, videos, and documents

Architectural floor plan.

Interior design drawings.

07 — Budget & Equipment

Kitchen budget excluding the bar (SAR)

The allocated kitchen budget is between SAR 150,000 and SAR 200,000, excluding the bar.

Equipment already selected or purchased

No equipment has been purchased to date.

Potential equipment suppliers

Al Raqtan Company.

Kawader Al Jazeera Company.

Budgetary and technical constraints

Equipment selection, technical specifications, and installation requirements must align with the approved budget and the kitchen's operational needs.

08 — Timeline & Priorities

Is February 2027 still the target opening date?

The current target opening date is 1 February 2027. However, the date remains subject to project progress and any unforeseen circumstances.

Current stage of project development

The project is currently at the interior design stage.

Urgent decisions to be made

The immediate priorities are to determine the required kitchen area, identify the appropriate equipment, and obtain detailed equipment specifications and quotations. These decisions are necessary to finalize the kitchen layout, validate production capacity, and ensure that the proposed setup remains within the

Who has final approval of the menu, budget, and plans?

Mr. Ahmed.
